END-TO-END VISIBILITY. SUPPLIER/PO MANAGEMENT IN ASIA

“We have worked with Hutchison Logistics for 8 years with them providing global logistics services to bring our stock in from far east markets. During this time we have found them to be very customer focused and proficient, managing the end-to-end process in an effective and efficient manner.

They provide good visibility of the process and are proactive at raising issues and developing solutions to any changes that come our way. Their UK team are very knowledgeable and work closely with us to ensure a smooth flow of product from source through the ports and on to our warehouses in the UK”

ORIGIN CONSOLIDATION. SHANGHAI - FELIXSTOWE

“ Hutchison Logistics have worked closely with us to ensure a new consolidation venture from Shanghai to Felixstowe was set up with the minimum of stress to both us and our suppliers.

They have worked closely with our suppliers to ensure seamless flow of goods and to allay any fears they had about a change in incoterms. This has helped reduce the amount of individual shipments we have made saving time and money.”

WINNING PARTNERSHIP. PORT-CENTRIC FELIXSTOWE SOLUTION.

“Hutchison Logistics demonstrated true collaborations, understanding the client requirements from the offset. First class communications which sounds simple but not many companies execute the daily level of consistencies required which enabled the partnership to grow from strength to strength. Hutchison took great care in understanding each touch point of the project which meant no delays or operational issues which was outstanding. Their ethos of continuous improvement is within our DNA which is enabling a greater success from the original design flow. The blend of knowledge and experience from our internal operations coupled with Hutchison knowhow and can do attitude has enabled a successful partnership and created real value in our supply chain.”
